

CURRICULUM VITAE

As a Software engineer I wish to progress my career further in the field. I have a great passion for learning; I am a very organised and efficient worker, able to learn anything at an incredible speed, and like to keep myself feeling challenged both in and out of the workplace. To facilitate my career path, I have graduated from a coding Traineeship as a full stack developer including completing 2 real-world projects successfully to specification using a wide range of programming languages. I have good work ethics and I am willing to take calculated risks. I am tenacious in my approach to how I work, and I believe that my unique combination of experiences and skills would make me an asset to your organisation.
